he had heard any thing of Phelps leaving 3
the cause & the State. No he said he had
not. We asked Dr Farnsworth where he got
his intelligence & he said Stanton told him.
Last night Garrison said that Phelps was
going to resign in December so Stanton
told him the day before. Johnson said that
probably Phelps was resigning now on account
of the woman question being brought into
the mass so & then he was pledged to
leave. This you see he avoids by quitting
now. That is he avoids giving that reason
for leaving to the world. Poor Charles
Sorney I suppose will be just fool enough
to stop & bear the brunt. Edwin Thompson.
the feeler, thanks be to praise Phelps took money
due to the Essex county & to the mass so's
so he will be got rid of. Garrison seems
to think that Stanton will be the best
gen agent we can get. I say no dont
have such as ——— Caroline wants
Miss Kingman to have her bonnet done
as soon as poinble now. the winds the
velvet as near as she could get. As for little
Henry you may do as you please I
should like to have him at Weymouth
while I am there & I pledge myself
to take all the care of him. Flaneda
wanted me to tell you that she
should be delighted to see you
the 1st or 3d as best suited you.

I intend if possible to be at Weymouth Thanksgiving. I am in such a drive all the time I hardly have time to breathe I have been writing in great haste, but I think you will find it a fair letter Love to all

The hand was much admired & I will send a print of it by the money in the [illegible] days

Chas Allen

Chas Hervey Amasa Weston
Weymouth
Mass.

The tide somehow seems up & we are all on the qui vive for what will come

I wish you could be here at the meeting to-morrow. Stanton you know is to speak & there seems to be a chance of something.
